	Russian page	English page
Drift of a Gyroscope in a Cardan Suspension on a Moving Base. D. M. Klimov and V. A. Potapenko	3	1
On the Theory of the Gyrocompass With Torsion Suspension. V. P. Vasilenko and M. E. Temchenko	6	4
Theory of Inertial Systems Without Gyroscopic Sensors. V. D. Andreev, E. A. Devyanin, and A. P. Dem'yanovskii	14	10
Application of Linearization Methods in the Study of Forced Oscillations in Nonlinear Systems. M. Z. Kolovskii	20	14
Dynamics of Devices Using Dual-Gap Vibrators. K. Sh. Khodzhaev	27	19
Resonance Properties of a One-Degree-of-Freedom System With Randomly Varying Resonance Frequency. M. F. Dimentberg	35	24
Almost-Periodic Vibrations of Nonlinear Systems With Quasi- Cyclic Coordinates. M. Ya. Kushul	41	28
Qualitative Investigation of a Differential Equation in the Theory of Electric Devices. E. N. Gersht	53	36
Vibration and Stability of Cylindrical Shells in a Gas Flow. A. D. Brusilovskii, L. M. Mel'nikova, and Yu. Yu. Shveiko . . .	67	44
Theory of Wave Processes in the Axisymmetric Deformation of a Spherical Shell. N. D. Veksler and U. K. Nigul	74	49
Equilibrium Equations for a Momentless Lattice Shell. V. L. Biderman and B. L. Bukhin	81	54
The Load-Carrying Capacity of Antisymmetrically Loaded Circular Plates. V. N. Al'pert	90	60
Twisting of an Elastic Half-Space by the Rotation of a Ring-Shaped Punch. N. M. Borodachev and F. N. Borodacheva	94	63
Bending of an Infinite Plate Bonded to an Elastic Half-Space. Yu. M. Bardanov and G. Ya. Popov	100	67
Some Plane Problems of Soil Dynamics. A. M. Skobelev	108	72

Contents (cont'd)

	Russian page	English page
Principles of Stress and Strain Addition and Creep in Polymer Materials. I. I. Bugakov	114	76
Experimental Investigation of the Laws Controlling the Plastic Dilatation of Metals. O. G. Rybakina and Ya. S. Sidorin	120	82
Deformation of a Strip Drawn Through a Curved Die. B. A. Druyanov.	125	87
Compressibility Effect in Stability Problems of Elastoplastic Plates and Shells. V. V. Sorokin	131	91
Effect of Stress Redistribution on Brittle Fracture Time. L. M. Kachanov	134	93
A Contact Problem for a Thin Annular Layer. V. M. Aleksandrov, V. A. Baheshko, A. V. Velokon, I. I. Vorovich, and Yu. A. Ustinov.	135	94
Thermoelastic Stresses Inside a Half-Space. I. D. Kill	140	97
Local Buckling of Membranes. G. P. Cherepanov.	144	100
Solution of the Problem of Bending of Anisotropic (Nonorthotropic) Plates. V. S. Sarkisyan. . . .	147	102
Dynamic Systems With Impulsive Interactions in the Theory of Nonlinear Oscillations. L. V. Bespalova, Yu. I. Neimark, and M. I. Feigin	151	105
Determination of Maximum Nonstationary Oscillatory Amplitudes of Dynamical Systems With Many Degrees of Freedom. N. Van Dao	160	111
Oscillations of a System of Centrifuge Type in the Parametric Resonance Zone. Yu. V. Osetinskii.	163	114
On the Choice of the Optimal Parameters of Shock-Absorber Characteristics. V. V. Guretskii	167	117
The Position Error of Clocks. N. N. Serebryakova	171	120
The Shape of Rods and Shafts in Longitudinal and Torsional Vibration When the Natural Frequency is Bounded from Below. I. P. Nedyal'kov and B. I. Cheshankov.	173	122
Vibration of a Semi-Infinite Beam of Variable Length. L. A. Movsisyan.	174	123
On the Problem of Determining Control Forces. I. A. Balaeva	176	125

	Russian page	English page
Control of the Motion of an Object by Means of Accelerometer Readings. V. D. Andreev and I. V. Novozhilov	3	1
Determination of the Absolute Angular Velocity, the Distance to the Center of Attraction and Construction of the Vertical by Inertial Means. E. A. Devyanin and A. P. Dem'yanovskii	11	6
On the Motion of a Gyroscope in a Cardan Suspension. Kh. L. Smolitskii.	17	10
Vibrations in a System with Several Electromagnetic Exciters. K. Sh. Khodzhaev	23	14
The Excitation of Vibrations during Operation of a Lathe. Yu. I. Gorodetskii	30	19
The Basic Equations of the Theory of Elasticity for Materials with Different Tensile and Compressive Strengths. S. A. Ambartsumyan and A. A. Khachatryan	44	29
Stress Distribution Close to a Horizontal Working of Elliptical Cross Section in a Transversely Isotropic Mass with Inclined Planes of Isotropy. S. G. Lekhnitskii	54	35
A Separation Scheme for the Equations of Shell Theory. L. A. Rozin	63	41
A Complex Representation of the Solution in the Plane Theory of Elasticity. V. A. Sveklo	71	46
Periodic Solutions of an Axially Symmetric Problem in the Theory of Shells. E. L. Aksel'rad	77	50
Use of the Variational Principle in Stability Problems of Shells under Creep Conditions. E. I. Grigolyuk and Yu. V. Lipovtsev	84	56
Some Solutions of the Equations of Plastic Flow of an Anisotropic Medium. M. A. Zadoyan	91	61
On Verifying the Laws of Plasticity in Stress Space. L. S. Andreev	97	65
Law of Deformation of a Viscoelastic-Plastic Medium. T. B. Larina . . .	101	69

Contents (cont'd)

	Russian page	English page
Description of the Creep of Metals Including the Elastic Aftereffect. E. A. Khein	103	70
Creep in a Nonuniformly Heated Thick-Walled Tube Subjected to Internal Pressure. I. A. Danyushevskii and G. Kh. Listvinskii	106	72
Analysis of Experimental Data on the Bauschinger Effect and Their Theoretical Interpretation. G. B. Talypov	108	74
Determination of the Compression Forces and the Velocity Field during the Pressing of a Thin Wedge of Rectangular Cross Section. Yu. S. Arutyunov	116	79
Investigation of the Stresses in the Vicinity of Cracks in Flat Plates. A. D. Sorokin	119	81
State of an Annular Plate beyond the Elastic Limit for an Exponential Strain-Hardening Law. L. M. Golunova	121	84
Deformation of Bodies with Different Tensile and Compressive Strengths. G. S. Shapiro	123	85
Stability of an Annular Ring Plate under a Radial Tensile Load. G. N. Bareeva and A. D. Lizarev	126	87
Bending of a Flat Cantilever. S. E. Birman	130	90
Estimation of the Error in Determining the Deflection of a Plate by the Method of Successive Approximations. N. V. Kopchenova	132	92
Some Mixed Three-Dimensional Problems in the Theory of Elasticity. V. M. Aleksandrov and A. S. Solov'ev	135	95
Elastic Equilibrium of a Space Containing Periodically Distributed Circular Slits. Yu. N. Kuz'min	140	98
Some Problems of the Deformation of a Semi-Infinite Two-Layer Strip. L. A. Novikov and Ya. S. Uflyand	143	100
Basic Relations of the Theory of Elastic Three-Layer Shells of Variable Rigidity. Kh. M. Mushtari	145	102
Analysis of the Nonlinear Deformation of a Spherical Dome to a High Approximation. I. I. Vorovich and V. F. Zipalova	150	105
A Method of Integrating the Equations for the Axisymmetric Vibrations of a Spherical Shell. V. P. Shmakov	154	110
Bending Flutter of Rotating Elongated Bodies. P. I. Sheludev	160	114
Driving Piles by the Vibration Method with End Resistance. Z. S. Batalova	165	118
Interaction of Oscillatory Systems and Coupled Waves. Yu. I. Marchenko and V. P. Ružanik	174	124
Self-Oscillations of a Weight on a Moving Conveyer Belt. V. M. Yakovlev	175	125
Amplitude-Frequency Characteristic for a System with Randomly Varying Parameters. M. F. Dimentberg	178	127
Separation of Granular Mixtures as a Random Process in a Bounded Region. E. A. Nepomnyashshii	183	130
Shock Absorption for Instruments Mounted on Moving Objects. V. B. Larin	186	132
Damping of Oscillations of Gyroscope Rotors with Journal Bearings. S. I. Sergeev	189	135
Investigation of the Stability of a Gyrocompass by the Methods of Nonlinear Mechanics. V. D. Korolev	191	136
On the Stability of a Dynamical System. Yu. A. Tsurikov	193	138
A Method of Solving Linear Integral and Differential Equations. B. D. Khan'zhov	196	140

Azimuthal Mismatch of Two Cardan Systems. A. Yu. Ishlinskii	3	1
Astatic Gimballed Gyroscope and Its Deviations in the Presence of Angular Oscillations of the Base. A. S. Grishin.	9	5
Effect of Random Variations of the Angular Velocity of the Gyroscope Rotors on the Motion of a Gyrocompass. L. Ya. Roitenberg	19	12
Application of the Energy Method to the Study of the Stability of Oscillating Systems. V. A. Storozhenko	24	16
Certain Stability Problems of a Liquid-Filled Body. S. V. Cheremnykh	33	22
Some Estimates of the Coefficients of the Equations of Disturbed Motion of a Liquid-Containing Body. I. G. Gataullin and V. I. Stolbetsov	40	27
Excitation of High-Frequency Oscillations in a Nonlinear Vibration Isolator. M. Z. Kolovskii	47	32
Choice of Optimum Parameters of a Power-Limited Propulsion System with an Energy Accumulator. B. N. Kiforenko	53	36
Layered Elastic and Viscoelastic Media with Small Initial Irregularities. V. V. Bolotin	59	40
Transient Creep with Power-Law Hardening. Yu. N. Rabotnov.	66	45
Plane Problem of the Theory of Elasticity of Microinhomogeneous Bodies. V. A. Lomakin	72	49
State of Stress in Regions with Two Zones of Stress Concentration. N. S. Kurdin.	78	53
Stability of a Structurally Anisotropic Circular Cylindrical Shell in Nonuniform Compression. V. V. Kabanov.	84	57
Creep Buckling and Collapse of a Square Cylindrical Panel Compressed Along the Generator. G. V. Ivanov and V. N. Shepelenko	89	61
Creep Buckling Criteria for Thin Shells. E. I. Grigolyuk and Yu. V. Lipovtsev	99	67

Contents (cont'd)

	Russian page	English page
Stability of a Cylindrical Shell Under Uniform External Pressure with Various Support Conditions. Yu. M. Khishchenko	107	72
Some Problems on Transversely Isotropic Circular Plates in Bending. A. A. Khachatryan.	110	75
Deformation of an Infinite Transversely Isotropic Body Weakened by an External Circular Slit. R. Ya. Suncheleev	116	79
An Inverse Problem of the Theory of Elasticity. G. P. Cherepanov	119	81
A Plane Elastoplastic Problem with an Exponential Yield Condition. B. D. Annin	122	83
Propagation of Weak Discontinuities in Ideal Elastoplastic Media in a Plane State of Stress. A. D. Chernyshov	124	84
The Complete System of Equations of Plastic Equilibrium of Thin-Walled Shells. V. I. Rozenblyum	127	86
Linearization of the Relations of the Theory of Plastic Media Whose Properties Depend on Time. I. A. Berezhnoi.	133	90
Transformation and Integration of Equations of the Theory of Plasticity for a Plane State of Stress. F. S. Churikov	136	92
Vibrocreep. A. M. Lokoshchenko and S. A. Shesterikov	141	95
Note on the Variable Loading Theorem. V. V. Moskvitin and El'ter Palne	144	97
Prandtl Problem for an Anisotropic Plastic Layer Inhomogeneous with Respect to Thickness and the Equilibrium of a Half-Space Under the Action of a Distributed Load. O. D. Grigor'ev	147	100
Stability of a Thin Rectangular Glass-Reinforced Plastics Plate. G. I. Bryzgalin	149	101
Plastic Deformation of Steel Under Combined Loading at Constant Stress Intensity. G. A. Doshchinskii and V. I. Maksak	153	103
Fluctuation Theory of the Strength of Amorphous Polymers. Yu. A. Buevich.	155	105
Temperature Stresses in an Orthotropic Plate Under the Influence of Distributed and Concentrated Heat Sources. A. I. Uzdalev	160	108
Thermodynamic Analysis of Models of an Inelastic Continuum. V. N. Nikolaevskii	163	110
Design of a Passive Antivibrator with Excitation in the Form of a Stationary Random Process. L. S. Maksimov	167	113
A Control Method in Pursuit Problems. B. L. Mintsberg	172	116
Stability of Motion of a Special Type of Gimbal-Mounted Gyroscope. Pham Huen.	175	119
The Gyrocompass in Roll. Yu. K. Zhbanov.	178	122
Determination of the Natural Frequencies of Oscillation of a Heavy Flexible Cable by Means of the Bubnov-Galerkin Method. V. N. Norin	180	124
Construction and Stability of the Periodic Solutions of Quasilinear Nonautonomous Systems with Two Degrees of Freedom When the Fundamental Equation Has Zero Roots. G. V. Plotnikova	186	128

Contents (cont'd)

	Russian page	English page
The Rheology of a Viscoelastic Medium. A. A. Vakulenko and V. M. Chebanov	127	78
General Solution of Some One-Dimensional Problems of Transient Creep. N. N. Shchetinin.	130	80
Plastic Analysis of Thick-Walled Cylinders. V. I. Rozenblyum	133	82
Stability of Columns Under Impact Compression. B. M. Malyshev	137	86
Bending of a Rod by Discontinuous Surface Loads. P. Z. Livshits	142	90
Large Deformations of a Flexible Spherical Shell Loaded by Fluid Pressure. Yu. I. Solodilov.	151	96
Stress Concentration at a Shell in Joint Action with a Plate. A. I. Gaganova.	154	98
Penetration of an Annular Stamp Into an Elastic Half-Space. N. M. Borodachev and F. N. Borodacheva.	158	101
Strength and Stiffness Calculations for a Beam Bent Under a Random Load. V. A. Lomakin	162	104
Long-Time Strength Criterion for Plexiglas in Combined Tension and Torsion. V. P. Sdobyrev.	165	106
Stresses Due to Volume Thermal Shock in Uniformly Heated Bodies. Yu. D. Deniskin and D. D. Shenker.	168	108
Stresses in a Homogeneous Anisotropic Elliptic Disk Rotating About an Eccentric Axis. G. M. Khatiashvili	172	111
Oscillations of Nonlinear One-Degree-of-Freedom Systems Under the Action of a Periodic Force and a Randomly Varying Natural Frequency. M. F. Dimentberg	176	114
Compensation of One Form of Ballistic Deflection of the Gyro Horizon Compass. M. A. Shif	179	116
Calculation of Bending Impact Against Infinite Beams and Slabs on an Elastic Foundation. V. V. Bagreev	185	120
Large Displacements of a Helical Cylindrical Rod. E. Ya. Dem'yashkina and M. Yu. Karpova.	188	123

Evolution of the Plane of an Elliptical Satellite Orbit Under the Influence of a Lateral Perturbing Force. Yu. M. Kopnin	36	22
Approximate Method of Calculating the Transition Through Combination Resonance. Yu. V. Osetinskii	37	23
Effect of a Random Perturbation on a Mechanical System with Many Degrees of Freedom and Linear Elastic Constraints. V. V. Putyatin	41	26
Interaction of a Plate and a Fluid Under Impact. L. I. Slepian	44	28
Flutter of a Cylindrical Shell in a Compressible Conductive Fluid Stream in the Presence of a Magnetic Field. G. E. Bagdasaryan and M. V. Belubekyan	50	32
The Transfer of Concentrated Forces to a Thin-Walled Shell. V. I. Feodos'ev and S. M. Chernyakov	57	36
The Different-Modulus Theory of Elasticity. S. A. Ambartsumyan and A. A. Khachatryan	64	41
The Plane Problem of the Theory of Elasticity for Bodies with Rapidly Oscillating Elastic Properties. V. A. Lomakin	68	44

Contents (cont'd)

	Russian page	English page
Kinetics of Crack Propagation. Conditions of Fracture and Long-Term Strength. G. I. Barenblatt, V. M. Entov, and R. L. Salganik.	76	49
Plasticity Theory Taking into Account the Bauschinger Effect. G. B. Talypov	81	52
Basis of the Equations of Sandwich Plates of Asymmetric Structure and Rigid Core. E. I. Grigolyuk and V. M. Kornev.	89	58
Investigation, in High Approximations, of the Stability of a Spherical Dome for Various Methods of Loading and Reinforcement. V. F. Zipalova and V. M. Nenast'eva	98	64
Nonaxisymmetric Forms of Loss of Stability of Annular Plates Under a Nonuniform Stress Field. G. N. Bareeva and A. D. Lizarev	103	71
Computing a Cylindrical Shell to Withstand Cyclical Loads. A. Petrova-Deneva	106	73
The Theory of Bending Orthotropic Plates. L. A. Agalovyan.	114	79
Elastic Equilibrium of a Circular Plate with an Elliptical Cutout Tightly Plugged with a Different Material. Yu. A. Amenzade	122	84
The Axisymmetric Problem of Elasticity Theory for an Unbounded Body with Two Coaxial Slots of Different Radii. Yu. N. Kuz'min.	129	89
Effect of Elasticity of Bulkheads on the State of Stress of a Stiffened Circular Cylindrical Shell with a Rectangular Opening in Torsion. S. I. Galkin and T. E. Levitskaya.	136	93
Some Problems in the Deformation of Rods and Plates with Residual Stresses. El'ter Palne	139	97
Stress Concentration in a Plate with a Circular Hole. V. D. Kulikov and V. L. Fomin.	144	101
Rotation of an Initially Bent Elastoplastic Rod. V. E. Voronkov and V. V. Moskvitin	147	105
General Nonlinear Law of Hereditary Creep. A. R. Rzhanitsyn	150	107
Relaxation Function of Elastic-Memory Materials in the Presence of Simple Flow. V. I. Dyrda, I. I. Krush, and M. I. Rozovskii	155	110
The Axympotic Behavior of a Special Operator Appearing in the Theory of Creep Under Variable Loading. E. S. Sinaiskii	157	112
Machine for Combined Loading with Automatic Programming of the Stress State. B. D. Annin, N. S. Danilov, and Yu. N. Rabotnov	161	114
